introduction

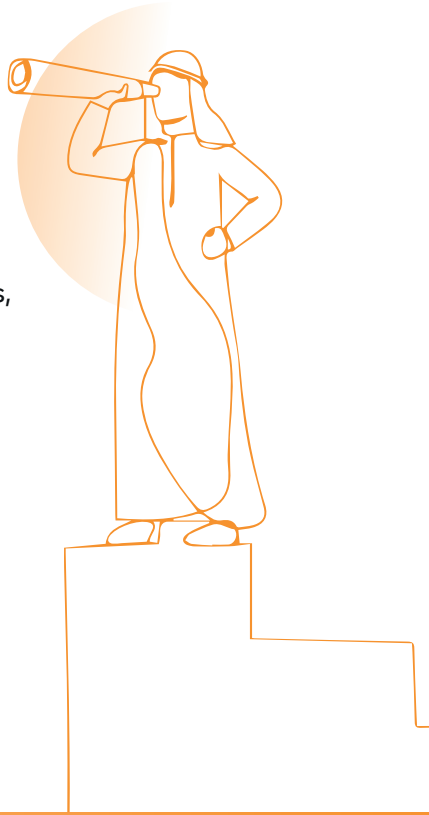
Founded in Qatar, Alataa Smart Solutions is committed to leading the future of smart buildings. We believe every space can be more intelligent, more secure, and more efficient — and we make that possible through integrated technologies tailored to our clients' needs. Over the years, we've evolved our capabilities to serve developers, consultants, and property owners with unmatched reliability and innovation.

Vision

To be the leading provider of smart living and intelligent infrastructure solutions in Qatar and the region — where lifestyle and technology are seamlessly connected.

Mission

We deliver innovative solutions including smart locks, automatic doors, smart glass, meeting room systems, and comprehensive IT services — all from one source. Our mission is to empower individuals and organizations to create smarter, safer, and more connected spaces through trusted systems, expert installation, and ongoing support.



Services

Smart locks

At ALATA, we pride ourselves on offering a wide array of durable and cutting-edge smart locks, tailored to cater to the diverse requirements of our clientele. Our comprehensive selection encompasses both wired and wireless options, ensuring seamless installation and user-friendly programming. As authorized distributors of various smart lock models, we also provide essential installation and setup services. With our modern range of locks, customers can expect:

- Wireless functionality, eliminating the need for cumbersome cables and wiring.
- Remote access capabilities, enabling users to unlock doors remotely for added convenience.
- Compatibility with a wide range of door types and most types of cabinets, ensuring versatile application.
- Installation without the need for wall or door breakage, preserving the integrity of your property's infrastructure.

CCTV

ALATAA provides tailored security solutions, ensuring peace of mind and protection for your premises. Our expertise extends beyond traditional CCTV solutions to encompass:

1. CCTV: Offering end-to-end surveillance solutions, from planning to setup and upkeep.
2. Smart Access Control: Providing integrated systems with intercoms, biometrics, and access management for heightened security.
3. Wireless Surveillance: Delivering state-of-the-art wireless options for versatile and efficient monitoring.

Whether it's safeguarding your home or securing commercial properties, ALATAA is your trusted partner in ensuring comprehensive security against unforeseen events.

Smart homes and buildings

At ALATA, we seamlessly integrate smart devices to create a cohesive and intelligent smart home environment, enhancing convenience, safety, and enjoyment. Our smart automation solutions empower homeowners and businesses to take control of their appliances and home environment, providing access to the best brands equipped with high-quality, cutting-edge home automation technology.

With our expertise, your existing smart home is transformed into a haven of comfort and luxury, tailored to meet your every need. What sets us apart is our meticulous approach to understanding the unique requirements and objectives of each facility. By conducting thorough assessments, we determine the optimal implementation methods and deliver results that exceed expectations. Experience the epitome of smart living with ALATA's innovative solutions for homes and buildings.

Smart solutions for meeting and conference rooms

We offer a comprehensive range of devices, equipment, and smart technologies to facilitate clear, seamless, and efficient communication, thereby cultivating an optimal digital environment for meetings. Our solutions are thoughtfully designed with simplicity in mind, ensuring easy setup, usability, and maintenance. This allows you to concentrate on your meeting agenda without the distractions of technical issues.

Whether you're a small startup or a large enterprise, a school, college, or university, our conference room solutions are scalable to meet your evolving needs. This ensures a seamless transition as your organization expands, providing the flexibility and adaptability required for continued success.

IT Solutions

At ALATA, we go beyond smart home and building solutions to offer comprehensive IT services tailored to meet the diverse needs of our clients. Our range includes

1. essential office supplies such as PCs, laptops, printers, and ink.
2.network and system support, and troubleshooting.
3.telephone systems (PBX)
4.video intercom systems.

Time attendance

Our solutions offer stable communication capabilities, supporting connectivity with thousands of time attendance devices. These devices can be conveniently managed remotely from anywhere through web browser access to our software platform. Users have full access and control over managing timetables, shift schedules, and generating comprehensive attendance reports, enabling efficient monitoring of attendance summaries and device statuses.

Structural Cabling

ALATA provides professional structural cabling services for infrastructure and ELV systems, improving reliability, scalability, and security. Our experienced team ensures seamless installation and organization, with a range of cable options tailored to meet specific needs.

Automatic doors

Our selection of automatic doors includes durable and sophisticated designs operated via fingerprints, magnetic cards, and other advanced systems. From swing to sliding to folding doors, we offer solutions that enhance accessibility, safety, and the overall welcoming experience for building entrances.

Types of automatic doors we provide:

Automatic Revolving Doors Machines

Automatic Sliding Doors Machines

Electronic Sliding Doors Machines

Automatic Swinging Doors Machines

Road Barriers

Smart Film & Switchable Glass

Privacy & Innovation at the Touch of a Button

At Alataa Smart Solutions, we offer advanced smart glass technologies that combine elegance, privacy, and innovation. Our systems use cutting-edge PDLC and LED film technologies to instantly switch glass from transparent to opaque, delivering a seamless visual experience and precise control over privacy and light.

Key Benefits:

- Instant transition between transparency and opacity
- Can be used as a high-resolution rear projection screen
- Reduces heat and blocks harmful UV rays for improved energy efficiency
- Fully customizable design based on dimensions and application
- Seamless integration with smart building and home automation systems

These solutions are ideal for offices, conference rooms, hospitals, residential spaces, and modern interiors.

Facade Lighting

Showcase your building... even at night.

Lighting solutions that highlight your architectural identity while saving energy with visual creativity. We offer:

- Dynamic LED lighting.
- Custom design based on structure.
- Smart control of colors and schedules..

Cleaning & Maintenance Services

A Smart Operational Division by Alataa

At Alataa Smart Solutions, we believe that technology alone isn't enough. That’s why we’ve developed a dedicated division for cleaning and facility maintenance — offering professional, high-quality services that seamlessly complement our smart systems. We serve our clients with operational excellence, designed to maintain the elegance and functionality of every project.

Our Cleaning Services Include:

- Residential & Villa Cleaning: deep cleaning, windows, carpets, furniture, kitchens
- Commercial & Educational Facilities: offices, schools, hotels, mosques, retail
- Post-construction & Renovation Cleanup
- Exterior Glass & Facade Cleaning
- Marble & Floor Polishing + Preventive Maintenance
- Flexible contracts: one-time, monthly, or customized schedules

Why Choose Alataa for Cleaning?

- Professionally trained teams with advanced cleaning equipment
- Seamless integration with smart systems (automated schedules & alerts)
- Contract flexibility tailored to your budget and scope
